IDE # if appropriate

This product is an investigational device not approved by FDA for any indication that needs to be used under an IRB approved protocol. You will be required to sign a purchasing agreement that will specifically state that. The company will not accept any liability for the use of the device without the IRB.

Without the protocol and IRB approval you will not be able to use this device.

If the IRB would require an Investigational Device Exempt (IDE) the Brainsonix will assist you with the technical information and in some cases with the application to the FDA.

Please email the letter to Brainsonix to reserve your device to
